

# **BLUME'S<sup>®</sup>**

## **KeyStone<sup>™</sup> Granite Composite Bowl**

### **Care & Maintenance**

#### **Routine Care & Maintenance**

Rinse any food or beverage residues as soon as possible. This will prevent having to use a detergent or cleanser to clean the sink for removal of dried on residue.

Cleaning of your KeyStone Granite Composite Bowl can be done by using soap and water or household cleaners followed by a thorough rinse.

Do not use steel wool or metal scouring pads to clean your KeyStone Granite Composite Sink.

#### **Removing Difficult Stains**

With the use of a scotch-brite pad, use Ajax, Comet, Bon Ami, or Bar Keeper's Friend to clean your sink.

For extremely difficult stains, fill your sink one-quarter full with a 50/50 solution of bleach and water. Let sit for ten to fifteen minutes, and while the solution is draining, wash and rinse both sides and the bottom of the sink.
